# Henry **Soicher**

Industrial Designer
Ux/UI Designer

Profile

Passionate Industrial and UX/UI Designer based in San Diego. I specialize in rendering, animation, and hands-on product development, creating functional and visually compelling design solutions for both digital and physical experiences.
Experience

INDUSTRIAL DESIGNER
'25 – '25

- Led concept development, sketching, modeling, rendering, and animation to deliver production-ready e-bike designs aligned with brand, user needs, and manufacturing requirements.
- Collaborated with marketing, sales, engineering, and manufacturing to ensure designs were visually compelling, feasible to produce, and met strategic goals.
PRODUCT VISUALIZATION SPECIALIST
'24 – '25

- Designed and delivered photorealistic 3D visuals and animations showcasing products for marketing campaigns, client presentations, and brand storytelling.
- Collaborated with engineering to transform CAD data into high-fidelity renderings for sales and promotional use.

### CONTRACT GRAPHIC DESIGNER
'24 –

- Designing technical user manuals focused on clarity, usability, and branded visual appeal.
- Creating photo-realistic product imagery to support client outreach and showcase upcoming offerings.

CONTRACT GRAPHIC DESIGNER
'23 –

- Designing clear, visually engaging newsletters and financial briefs for broad distribution.
- Maintaining brand consistency across all design assets for digital and print platforms.

CONTRACT DESIGNER
'23 – '24

- Produced high quality renderings and animations to clearly communicate product design and functionality.
- Illustrated technical concepts to support B2B communication of key engineering and mechanical principles.
